When only oily hair will do!

Moroccanoil, the revolutionary hair styling, finishing and conditioning product, has taken the haircare industry by storm, as well as causing rather a stir in our salons! A bi-product of the argan tree, which grows in the Atlas Mountains of Morocco, this oil has been used for centuries by Moroccan women as an effective barrier to the harmful effects of the weather. Rich in tocopherols (an antioxidant not unlike vitamin E) and unsaturated fatty acids, the oil naturally renews cell structure and helps restore shine to dull, lifeless hair. Come on, join the revolution! Full product range and gift packages available in the salon.
